5 O'CLOCK EDITION.

THE GAZETTE has a habit of nominating a host of citizens for office prior to any election. It speaks in time for delegates to the Constitutional Convention. But it should remember that Senator Foley was elected State Senator from Washoe at the last general election.—[Journal.]

While the GAZETTE did not mention Foley in that connection, we have no objection to your running him if you want to. Get in on everything and you are sure not to be left. But in the above squib is the Journal trying to create the impression that it achieved a very great "victory" in the Foley fight for Senator?

NEW YORK and Chicago capitalists are constructing an irrigation ditch in Gallatin county, Montana, which is to be thirty miles long and which will carry twenty-five thousand inches of water. The company has purchased thirty thousand acres of Northern Pacific land, and will be prepared to furnish water for settlers on the immense area of Government land that is also under the ditch.

There are millions for investment in irrigating schemes all around us, but not a nickel for Nevada.

THE Postoffice is an enormous institution. Postmaster General Wanamaker's report shows that the mail routes during the past year have been extended over 2,000,000 miles of Railway, steamboat and stage lines. The gross revenue was nearly \$5,000,000 larger than ever before. Nearly 5000 new Postoffices were established during the year. Five million miles were added to the Star route and 11,000,000 miles to the railroad service.

THERE is some good stock in the Rockefeller family. When one of the three daughters of John D. was a student of Vassar, out of her pin money which was sent her generously by her father, she paid the tuition and expenses of a girl from the country who was not able to pay for herself. A young lady that will do that deserves to have a rich father, and a father that has that kind of a girl deserves to be rich.

A REPORT from New Orleans says that the lottery gamblers find their business so crippled by the new Federal postal statute that they seriously contemplate retiring from the business and closing up the lottery. Really this is maturity of the fruit of good legislation in advance of expectation.

It is said that in order for a man to become a member of the Farmers' Alliance that he has actually got to own a cow pasture and go with manure on his overalls. They want no political dudes or bosses, but the clear cut yeomanry are the ones that are entitled to consideration.

THE White Pine News says: And now comes the RENO GAZETTE and boldly proclaims that, under the law, Senator Jones is not a resident of Nevada, and consequently is ineligible to the office of U. S. Senator. The GAZETTE's point is well taken.

Now that the election is over, wouldn't it ease the conscience of the free-trade liars who have been so anxious about the poor man's dinner-pail to just explain that the tin section of the McKinley bill does not go into effect until July, 1891?

SINCE the political revolution of 1890 there has been no instance of such success on a first attempt as has been achieved by the Farmers' Alliance. It has elected no less than thirty-six members to the House of Representatives.

GROVER CLEVELAND says he prayed for the success of Governor Pattison, of Pennsylvania. This makes Pattison's success only the more difficult to account for.

THERE are now thirty thousand Americans who reside in London. This does not include that class of Anglomaniacs who ought to.

THE Silver State has passed into the hands of a new company, who will make of it a Republican paper.

THE FATTEST OF ALL.

A Girl Who Weighs Four Hundred and Fifty Pounds.

Her Appetite is so Delicate That Her Parents Sometimes Become Alarmed—Two Pairs of Stockings Require it to Make One for Della.

A veritable mountain of rollicking, rolling flesh is good-natured, pleasant Della Beck, the largest girl in the world. Della, according to the Pittsburgh (Pa.) correspondent of the Chicago Times, is sixteen years of age and she tips the beam at exactly 450 pounds. She is the daughter of respectable but poor parents; her father is a coal-miner in the Westmoreland region, and her home is at Cokeville, that county, near the Indiana County line. Her parents are both of ordinary size and none of her brothers or sisters show signs of exceeding the average limits in point of physical development. At the age of five years one sister reached the weight of 145 pounds, but she died at that period.

The correspondent visited Della's home and found her to be a sufficiently comely American girl, strong and healthy, and of fair intelligence. In fact, she is rather pretty, considering her enormous proportions. She was asked to tell something about how she came to be so stout; but the question staggered her and she could not tell. In this connection, however, the writer drew from her the most remarkable feature of her existence.

"What do you eat?" she was asked. "Not much," was the astonishing reply.

"You seem surprised, and I don't blame you for doubting what I have just told you, but nevertheless it is gospel truth. I never had much of an appetite. 'But how did you get so fat?'" "I can't tell. You would like to know what I eat? I will tell you. It will not take long. In the first place, for my breakfast I usually take a cup of coffee and one or two hot cakes or a slice of toast, nothing more. For dinner I eat a slice and a half of baker's bread and a very small piece of steak or some potatoes and cabbage. My supper consists of about the same amount, with, of course, an occasional change of diet. Really, to tell you the truth, a meal for an ordinary person will last me two meals and I will have all I want too."

Mrs. Beck verified her daughter's statement and added that they were sometimes alarmed lest their child's health should fail from a lack of proper nourishment.

"Have you never tried to reduce your weight?" asked the writer of Mrs. Beck. "No, sir, I never have," she replied. "Why should I? I am happy, and never know what it is to be ill. I experience no difficulty in walking, but I puff a little when I go upstairs."

When Della was five years of age she weighed 145 pounds, and she has been gaining steadily ever since. She has increased in weight at the rate of one pound a month for the last few years, and is still gaining. In height she is 5 feet 4 inches. She measures 61 inches around the neck and 41 inches around the fleshy part of the arm. Her feet are not long, but are abnormally broad, so that it is impossible to procure any ordinary pair of woman's shoes to fit her. The same difficulty is experienced in fitting her with hose. Her mother explained that to meet the embarrassment which this causes she buys two pairs of hose and makes them into one. Della's chair is a curious piece of furniture, especially made for her, and is a settee large enough for two persons. Her bed is furnished with extra supports.

Compared with famous fat women of history Della Beck outshines, or rather outweighs them all when her age is taken into account. Hannah Battersby, the fattest woman that ever lived, did not acquire her enormous proportions until after she was forty, and Big Winnie, the colored heavy-weight, was thirty before she made a record. Della and her parents have at last decided to accept the offer of a local museum manager, and the girl will then appear for the first time in public. She will continue on the road and will manage herself.

ONE OF CUPID'S FREAKS.

A Divorced Couple Reunited After Each Has Married Two Other Mates.

Jackson Thomas married forty years ago a beautiful young woman about twelve years his junior, writes a Newport (Ark.) correspondent. After a few years they concluded they were not intended for each other and were divorced. Both found new and, presumably, more suitable companions. Death robbed each in a short time of the happiness thus found. Each tried a third matrimonial venture about the same time several years later, and the new relations continued until recently, when again, by a singular coincidence, the visitation of death left each alone in the world. The bereavement of the one was within a few weeks of that of the other.

Uncle Jack, as he is called, is now eighty years old. The lady who was his first wife is sixty-five. Old targets for Cupid, surely. But the little archer knew that under the dead ashes of a double bereavement in the old man's heart there was still something inflammable, so he aimed an arrow—a fiery arrow, so to speak—at the ancient breast-works, and the old flame of forty years ago burst forth again. It was carried by Uncle Jack to the woman from whom he separated thirty-five years ago. The flame caught and spread.

Now the fire on the household altar is burning again, after a brief courtship.

A Negro Millionaire.

Daniel Seales (colored) is a millionaire of San Francisco. He is a friend of Senator B. K. Bruce and Frederick Douglass, and his acquaintance with distinguished men of the Nation is extensive. Mr. Seales is of fine appearance. He dresses in the height of fashion, and his gray beard frames a face of amiability. The venerable lawyer arrived in Denver yesterday and registered at the St. James' annex. Forty years ago he went to California, and his early investments in San Francisco property made him rich. Mr. Seales has never been in politics. He has confined himself entirely to law and realty. Although in his seventieth year, he is as lively as a cricket. He believes in enjoying life.

Struck the Golden Mean as a Blood Purifier.

The Detroit Free Press says: "Hibbard's Rheumatic Syrup, prepared by the Charles Wright Medicine Company, of this city, has struck the Golden Mean in the treatment of all blood diseases, and its success is an evidence that an honest, reliable and valuable medicine, is not incapable of attracting the attention of every family. There seems to be but one opinion as to its merit as a family medicine. This is the real secret of the success of this wonderful remedy. Its real merit is its gentleness, in removing all impure and poisonous matter from blood. No home should be without it, as a thorough and effective blood purifier for young and old. For sale by all druggists."

NOTICES.

C. J. Brookins' variety store is here you can obtain both stringed and musical instruments of all kinds. This is the time in the year for you to secure a quantity of J. F. Alden's dry fire wood and \$12.50 hard coal. The accommodations to be had at the Riverside hotel are not excelled by the largest San Francisco houses. C. A. Thurston carries an elegant assortment of tinted paper and envelopes, also all kinds of legal blanks. For a well ventilated room, a good bed and as nice a meal as you ever sat down to in the town, patronize the Arcade. E. C. Leadbetter's increasing grocery trade shows that people will buy where they can get the best goods for the least money. But few people are able to pass E. Herz's show window without stopping to view the many beautiful articles therein contained. J. J. Becken's large patronage enables him to supply his customers with a schooner of beer and a nicely cooked hot lunch for 12 1/2 cents.

PERSONALS.

A. O. Porter is improving slowly. Charley Chapman of Horn & Chapman is in town. Colonel Woods of Virginia City is visiting Reno today. N. W. Roff and family arrived from Carson Saturday evening. Colonel Boyle took this morning's express for Salt Lake City. Hon. Lem Allen left this morning for his Churchill county home. District Attorney Allen, wife and son left this morning for Churchill county on a visit to relatives. Miss Kate Fellows came down from Carson on last evening's train and is visiting Miss Annie McLaughlin. Joe Platt, the Carson merchant, returned on this morning's delayed train from a trip to the Atlantic States. Miss Carrie Kennedy of Des Moines, Iowa, arrived here yesterday afternoon and will spend the winter with her Reno relatives. Mrs. M. Davidson, sister of Morris and Herman Ash, arrived from San Francisco this morning on a visit to her Reno relatives. Thomas Kane of Wells, accompanied by ex-Sheriff Henry Tabor of Elko county, is here with nine cars of beef cattle for the San Francisco market.

W. R. Mundell, late conductor on the Central Pacific, who for the past season has been in business in Seattle, has returned to Reno after his family, with whom he will soon return to his new home. A private letter from Keokuk, Iowa, contains the information that Orion Clemens, who was Secretary of the Territory of Nevada under Governor Nye, is a resident of that place. The ex-secretary seems to occupy about the same position at the bar as when a citizen of this country. The San Francisco Post of the 1st inst. contains the following: Hall McAllister will be married to Miss Henshaw of Boston in February next. They will make San Francisco their future home. Miss Henshaw's two sisters are expected to come out here on a visit. They are said to be unusually beautiful and interesting, and will prove a decided acquisition socially.

Get Out.

The White Pine News says: Our State exchanges are having a heated discussion relative to the price of votes in the different parts of the State. Eureka heads the list, votes there costing \$40 each. The price in Reno was \$20, while Carson furnished all wanted for \$10 apiece. White Pine is boss of them all. Here in Ely a lineal descendant of the Great Caesar had his vote bid up to \$250, but the gods that guard the purity of the ballot box just then stepped in, shoved the Hand of Time up to the polls closed, and the vote and money were forever lost to Caesar's renegade descendant.

General Irish's Storm.

I want to say that I have met with much opposition in trying to get my storm to come and stay with us a season; but that I now have the upper hand, and have succeeded in getting it landed in California, and will bring it over the mountains as soon as the governing revenue officers have given it a clearance. The barometer has been slowly falling since the 23d of November, and is now above the average, but falling rapidly. I think that winter is now about to begin in earnest. C. W. Irish.

San Francisco Meat Market. The following are the rates for whole carcasses from slaughterers to dealers in San Francisco: BEEF—First quality, 15¢/lb; second quality, 14¢/lb; third quality, 13¢/lb. Somewhat Ambiguous.

The GAZETTE generally knows more about the doings and business of others than it would know about its own if it attended to its own business. Journal.

Very Weak.

Mrs. C. H. Colburn of Carson is said to be very sick with typhoid fever, and her life is despaired of. The GAZETTE extends its sympathy to Charley.

Not Only the National Disease but Many Others. It is said that dyspepsia is our national malady. Well, BRANDRETH'S PILLS will cure this national malady. It is said that constipation is the cause of our century life. Well, BRANDRETH'S PILLS certainly cure constipation. It is generally conceded that rheumatism comes from acid stomach and sudden change of temperature. BRANDRETH'S PILLS have corrected this and will do it again. Chronic diseases are cured by taking two to four of BRANDRETH'S PILLS every night for a month. BRANDRETH'S PILLS are sold in every drug and medicine store, either plain or sugar coated.

BREVITIES.

Local and General Intelligence.

The barometer is falling and the indications are good for a storm. The delinquent tax list of White Pine county foots up over \$2,000. Arizona has 701 miles of irrigating canals that furnish water to 300,000 acres. Three cars of Inyo marble for the Essex Marble Works were forwarded today. Marcus Fredrick's Commercial Row stand is the place to find all the best brands of tobacco, cigars and cigarettes. What is the University weather clerk doing? Has he lost his fair weather flag? If not, he had better hang it out so that it can get wet. Ex-Governor Blaisdell is developing a fine silver and lead prospect at White Pine, Nev., says the News. Some of the ore runs as high as 1,000 ounces to the ton. Patrick Crowley, convicted of murder in the second degree for the killing of Nichols in the Savage mine last summer, has been delivered to the State Prison, where he has been sentenced for life. No better stock of men's, youths' and boys winter clothing and underwear was ever opened in this market than can be had at the White House, and their prices are as low as the same quality can be bought for in San Francisco. Catarrh is caused by scrofulous taint in the blood, and is cured by Hood's Sarsaparilla, which purifies and enriches the blood and gives the whole system health and strength. Try this "miraculous medicine." It is prepared by C. I. Hood & Co., Lowell, Mass.

A Proposed Innovation.

The Market Committee of the New York Board of Aldermen has reported favorably upon an ordinance providing for the sale of fruit and vegetables by weight instead of measure. The matter has been before the Board for three years.

The Place to Buy.

A. Nelson, of the Free Intelligence Office, Virginia street, carries a fine stock of the best tobacco, Havana and Key West cigars, notions, cutlery, gents' underwear, overalls, buckskin gloves, suspenders and Dr. "Willey's Discovery."

A ST. LOUIS PHYSICIAN.

He Tests a California Production.—His Report. A St. Louis gentleman whose affliction was sick headaches was so surprised at their cure by Joy's Vegetable Sarsaparilla, that he happened to be Dr. F. A. Barrett, the well-known St. Louis physician of 2603 Shennadoh Street. The doctor saw at once that it differed from the potash preparations in that it was purely vegetable, and becoming interested, began a series of investigations, and in a subsequent letter candidly admitted its curative properties, and says: "Wishing to test its virtues further, I used it in my own family, and prescribed it for patients who required a general system regulator. As a result, I can say it is an almost absolute cure for constipation, biliousness, dyspepsia, indigestion, and sick headaches. These troubles usually come from a disturbed condition of the stomach and bowels, and Joy's Vegetable Sarsaparilla is the best laxative and stomach regulator I have ever seen, and as a general system corrector is almost perfecting."

The California Cephaline Co.

Of Reno, Nev., has just incorporated to manufacture Rev. J. W. Pendleton's celebrated Cephaline, a specific for headaches. It rests on its merits. All druggists keep it.
